Summary

Passionate AI/ML Engineer who thrives building production RAG systems that actually solve real problems. Engineered agentic chatbots serving 10k+ users across 3 domains (1k docs/domain in Qdrant) using cutting-edge BGE-M3 embeddings and custom document parsing pipelines. Excited to bring production ML deployment expertise to innovative AI teams.

Skills

- **AI/ML:** RAG pipelines, BGE-M3, SPLADE-V3 embeddings, Agentic workflows, LLM inference
- **Languages:** Python, JavaScript/TypeScript
- **Frameworks:** FastAPI, LangChain, Angular
- **Databases:** Qdrant, PostgreSQL, MongoDB, Faiss
- **DevOps:** Docker, nginx, PM2, RHEL server management, Google Cloud Hosting
- **Document Processing:** pdfplumber, python-docx, Custom chunking pipelines
- **Integrations:** WhatsApp Business API

Experience

Senior Associate (AI/ML Engineer)

SBI Life Insurance Co. Ltd., Mumbai

Jun 2024 – Present

- **MyBuddy WhatsApp Chatbot (10k+ users)**
 - Agentic RAG across 3 domains (2k docs/domain Qdrant)
 - BGE-M3 embeddings + custom PDF/DOCX chunking pipeline
 - Deployed backend using pm2 on RHEL server
 - 70% query time reduction, 95% accuracy
- **Analytics Dashboard**
 - Real-time metrics from 10k+ MongoDB conversation logs
 - Deployed frontend and backend using nginx + PM2 respectively on RHEL
 - 85% manual reporting eliminated, 2x faster insights
- **Legal Assist Platform**
 - Angular/FastAPI document AI + bounding box UI
 - Deployed nginx frontend + PM2/FastAPI backend on RHEL
 - LLM change analysis (60% faster reviews, 98% accuracy)
- **PayGet PWA**
 - Premium calculator + automated PDF collateral generator
 - Deployed nginx frontend + PM2/FastAPI backend on RHEL
 - 40% faster quoting, 3x daily policy proposals

Education

B.Tech in Information Technology

Vidyalankar Institute of Technology, Wadala, Maharashtra

GPA: 9.17 | **Honors in Artificial Intelligence and Machine Learning**

2024

Achievements

- **GEM Award** for outstanding performance, SBI Life Insurance (Jan 2026)
- Production RAG chatbot serving 10k+ users (70% query time reduction, 2024)
- Built 3 production AI platforms processing 1k+ documents monthly
